## How I Made a 26-Hour Day

It's New Years Eve. Another year gone, another on the horizon. Around this time, you'll likely see posts on predictions and resolutions. I'll spare you that. Instead, I want to focus on the thing that prohibits our ability to reach our goals – time.

There's just not enough hours in the day.

True, but what if you could *make* more? Of course, I'm not speaking literally. Well, kind of.

### My 24-Hour Day

Just a few months ago I struggled with the issue of time. I was treading water. My day stacked up like this.

**7:00am** - Roll out of bed, make breakfast, get ready for work, handle a few emails and consume several cups of coffee

**8:45am** - Arrive at Moz

**5:30pm** - Leave Moz

**5:45** - Go to the gym

A screenshot of a website titled "Adrian Pike" displayed in a web browser window. The browser interface includes standard OS X controls at the top. The main content area features a circular profile picture of a man (Adrian Pike) on the left and his name "ADRIAN PIKE" in a large, serif font on the right. Below his name is a short bio: "Hi, I'm Adrian. I live in Bellingham, Washington, and build web startups and the technology behind them. I'm currently focusing on [Stride](#). When I'm not writing code or hacking on hardware, you can usually find me racing old cars and old sailboats, breaking them, and then fixing them back up to ensure the cycle isn't broken." At the bottom of the bio, it says, "If you want to chat, connect with me on any of these fine services:" followed by icons for Facebook, Twitter, GitHub, LinkedIn, YouTube, Google+, and a blue circular icon.

The screenshot shows a website for Eva Giselle. The header features a large, stylized "Eva Giselle" title with a purple ribbon banner below it containing the hex code "#B4D455". Below the title is a main content area with a light gray background. Inside this area, the text "I DO WEB, DESIGN, AND ILLUSTRATION." is displayed in purple, followed by "Check me out." and a hand-drawn style arrow pointing upwards and to the right. At the bottom left, there's a polaroid-style photo of a smiling woman with glasses, identified as Eva. Next to the photo is a bio: "Eva is a 22-year old web and graphic designer out of Bellingham, WA." Below the bio are social media icons for Facebook, Twitter, Email, and a portfolio link. To the right is a quote box with the opening "“" and the closing "”", containing the text "asking the DOM to prom".

# Weird Amalgam

nicholasquinlan.com

The screenshot shows a web browser window with a light gray header bar containing the address bar and a small profile icon. The main content area displays a white page with a blue circular logo on the left. To the right of the logo, the text "Hi I'm Nick." is displayed in a large, black, sans-serif font. Below this, a bio is written in a smaller black font: "I'm a(n)... entrepreneur, web developer & student". Further down, social media links are listed in green boxes: "Twitter", "Tumblr", "Spotify", "LinkedIn", "Github", and "Stack Overflow". At the bottom, there's a link "In 631 pixels" and another section about projects.

# Download

# Create Config

WordPress > Error

wp.nqtest.in/install/manl/

There doesn't seem to be a wp-config.php file. I need this before we can get started.

Need more help? [We got it.](#)

You can create a wp-config.php file through a web interface, but this doesn't work for all server setups. The safest way is to manually create the file.

[Create a Configuration File](#)

# Explanation

WordPress > Setup Configuration

wp.nqtest.in/install/man1/wp-admin/setup-config.php

**WORDPRESS**

Welcome to WordPress. Before getting started, we need some information on the database. You will need to know the following items before proceeding.

1. Database name
2. Database username
3. Database password
4. Database host
5. Table prefix (if you want to run more than one WordPress in a single database)

If for any reason this automatic file creation doesn't work, don't worry. All this does is fill in the database information to a configuration file. You may also simply open `wp-config-sample.php` in a text editor, fill in your information, and save it as `wp-config.php`.

In all likelihood, these items were supplied to you by your Web Host. If you do not have this information, then you will need to contact them before you can continue. If you're all ready...

**Let's go!**

# Default Config

WordPress > Setup Configuration

wp.nqtest.in/install/man1/wp-admin/setup-config.php?step=1

**WORDPRESS**

Below you should enter your database connection details. If you're not sure about these, contact your host.

<b>Database Name</b>	<input type="text" value="wordpress"/>	The name of the database you want to run WP in.
<b>User Name</b>	<input type="text" value="username"/>	Your MySQL username
<b>Password</b>	<input type="text" value="password"/>	...and your MySQL password.
<b>Database Host</b>	<input type="text" value="localhost"/>	You should be able to get this info from your web host, if localhost does not work.
<b>Table Prefix</b>	<input type="text" value="wp_"/>	If you want to run multiple WordPress installations in a single database, change this.

A screenshot of a web browser window showing the second step of a WordPress setup configuration. The title bar says "WordPress &gt; Setup Configuration". The address bar shows the URL "wp.nqtest.in/install/man1/wp-admin/setup-config.php?step=2". The main content area features the WordPress logo and the text: "All right sparky! You've made it through this part of the installation. WordPress can now communicate with your database. If you are ready, time now to...". A "Run the install" button is visible at the bottom left of the content area.

# Site Info

WordPress > Installation

wp.nqtest.in/install/man1/wp-admin/install.php

## Welcome

Welcome to the famous five minute WordPress installation process! You may want to browse the [ReadMe documentation](#) at your leisure. Otherwise, just fill in the information below and you'll be on your way to using the most extendable and powerful personal publishing platform in the world.

### Information needed

Please provide the following information. Don't worry, you can always change these settings later.

**Site Title**

**Username**  Usernames can have only alphanumeric characters, spaces, underscores, hyphens, periods and the @ symbol.

**Password, twice**  
A password will be automatically generated for you if you leave this blank.   
 **Strength indicator**

Hint: The password should be at least seven characters long. To make it stronger, use upper and lower case letters, numbers and symbols like ! " ? \$ % ^ & ).

**Your E-mail**  Double-check your email address before continuing.

WordPress > Installation

wp.nqtest.in/install/man1/wp-admin/install.php?step=2

**WORDPRESS**

Success!

WordPress has been installed. Were you expecting more steps? Sorry to disappoint.

Username admin

Password *Your chosen password.*

**Log In**

A screenshot of a web browser showing the successful installation of WordPress. The title bar says "WordPress > Installation". The address bar shows the URL "wp.nqtest.in/install/man1/wp-admin/install.php?step=2". The main content area features the "WORDPRESS" logo at the top, followed by a "Success!" message. It informs the user that WordPress has been installed and expresses disappointment at not having more steps. Below this, it displays the "Username" as "admin" and the "Password" as "*Your chosen password.*". At the bottom is a prominent "Log In" button.

# Login

A screenshot of a web browser window displaying the WordPress login page. The browser's title bar reads "The Demo Site > Log In". The address bar shows the URL "wp.nqtest.in/install/man1/wp-login.php". The main content area features the classic WordPress logo at the top left. Below it is a login form with fields for "Username" and "Password", a "Remember Me" checkbox, and a "Log In" button. At the bottom of the form are links for "Lost your password?" and "← Back to The Demo Site".

The demo site is titled "The Demo Site".

The URL in the address bar is "wp.nqtest.in/install/man1/wp-login.php".

The login form fields are "Username" and "Password".

The "Remember Me" checkbox is located below the "Username" field.

The "Log In" button is located to the right of the "Remember Me" checkbox.

The "Lost your password?" link is located below the "Log In" button.

The "← Back to The Demo Site" link is located at the bottom of the form.

Permalink Settings

By default WordPress uses web URLs which have question marks and lots of numbers in them, however WordPress offers you the ability to create a custom URL structure for your permalinks and archives. This can improve the aesthetics, usability, and forward-compatibility of your links. A [number of tags are available](#), and here are some examples to get you started.

**Common Settings**

<input type="radio"/> Default	<a href="http://wp.nqtest.in/install/man1/?p=123">http://wp.nqtest.in/install/man1/?p=123</a>
<input type="radio"/> Day and name	<a href="http://wp.nqtest.in/install/man1/2013/02/11/sample-post/">http://wp.nqtest.in/install/man1/2013/02/11/sample-post/</a>
<input type="radio"/> Month and name	<a href="http://wp.nqtest.in/install/man1/2013/02/sample-post/">http://wp.nqtest.in/install/man1/2013/02/sample-post/</a>
<input type="radio"/> Numeric	<a href="http://wp.nqtest.in/install/man1/archives/123">http://wp.nqtest.in/install/man1/archives/123</a>
<input checked="" type="radio"/> Post name	<a href="http://wp.nqtest.in/install/man1/sample-post/">http://wp.nqtest.in/install/man1/sample-post/</a>
<input type="radio"/> Custom Structure	<a href="http://wp.nqtest.in/install/man1/%postname%/">http://wp.nqtest.in/install/man1/%postname%/</a>

**Optional**

If you like, you may enter custom structures for your category and tag URLs here. For example, using `topics` as your category base would make your category links like <http://example.org/topics/uncategorized/>. If you leave these blank the defaults will be used.

wp.nqtest.in/install/man1/wp-admin/themes.php

Version 3.5.1

# Themes

Screenshot of the WordPress admin interface showing the 'Manage Themes' screen.

The page title is "Manage Themes < The Demo". The URL in the address bar is "wp.nqtest.in/install/man1/wp-admin/themes.php". The user is identified as "Howdy, admin".

The left sidebar shows the navigation menu with "Appearance" selected under "Themes". Other options include "Widgets", "Menus", "Header", "Background", "Editor", "Plugins", "Users", "Tools", "Settings", and a "Collapse menu" button.

The main content area displays the "Manage Themes" tab is active, with "Install Themes" as a secondary option. The "Current Theme" is "Twenty Twelve" by the WordPress team, Version 1.1. A preview of the theme is shown, featuring a green landscape image and a sidebar with various theme settings.

A description of the theme states: "The 2012 theme for WordPress is a fully responsive theme that looks great on any device. Features include a front page template with its own widgets, an optional display font, styling for post formats on both index and single views, and an optional no-sidebar page template. Make it yours with a custom menu, header image, and background."

Below the theme preview, there are links for "Customize" and "OPTIONS: Widgets | Menus | Header | Background".

The "Available Themes" section shows a preview of the "Twenty Eleven" theme, which features a close-up image of a shiny metal object. Below the preview, the theme name "Twenty Eleven" and its author "the WordPress team" are listed, along with download links ("Download ZIP" and "View on GitHub") and a "Details" link.

At the bottom of the screen, there are buttons for "Activate", "Live Preview", and "Delete".

# Install Themes

Screenshot of the WordPress admin interface showing the 'Install Themes' page.

The page title is 'Install Themes' under 'The Demo Site'.

The left sidebar shows the 'Appearance' menu selected, with sub-options: Themes, Widgets, Menus, Header, Background, Editor, Plugins, Users, Tools, and Settings.

The main content area has tabs: 'Manage Themes' (selected) and 'Install Themes'.

Search and filter options are available:

- Search:** Search for themes by keyword.
- Feature Filter:** Find a theme based on specific features.

The feature filter section includes categories and checkboxes:

- Colors:** Black, Blue, Brown, Gray, Green, Orange, Pink, Purple, Red, Silver, Tan, Yellow, Dark, Light.
- Columns:** One Column, Two Columns, Three Columns, Four Columns, Left Sidebar, Right Sidebar.
- Width:** Fixed Width, Flexible Width.
- Features:** Blavatar, BuddyPress, Custom Background, Custom Colors, Custom Header, Custom Menu, Editor Style, Featured Image Header, Featured Images, Flexible Header, Front Page Posting, Full Width Template, Microformats, Post Formats, RTL Language Support, Sticky Post, Theme Options, Threaded Comments, Translation Ready.
- Subject:** Holiday, Photoblogging, Seasonal.

A 'Find Themes' button is at the bottom of the filter section.

Page footer: Thank you for creating with [WordPress](#). Version 3.5.1.

# Theme Repo
